Canine Preventive Healthcare Plans

What can our Preventive Healthcare Plan (PHP) do for you and your dog?

Dogs age faster than we do! At 2 years of age, he or she would have aged the equivalent of nearly 25 human years! And by age 7, many dogs are considered to be the human equivalent of a senior. Our annual PHP packages are designed to include all the preventive veterinary services we anticipate your dog will need to maintain their overall health.

Option A Plan
12 payments of
\$20.95/month (taxes extra)

Option B Plan
12 payments of
\$46.95/month (taxes extra)

Dental Add-on
12 payments of
\$51.00/month (taxes extra)
(added to one of above plans)

Up to \$200 in savings!!!

Included in every Dog Plan:

Comprehensive Health Examination

(once per year)

- A thorough physical examination to assess your dog's overall health from the tip of their nose to the end of their tail.

All Core Vaccinations your Dog Needs

(once per year)

- Vaccines are essential to protect your dog against common diseases and infections.

Fecal Testing

(up to 2 tests while enrolled)

- Fecal tests look for microscopic parasites that are not treated by regular deworming.
- We want to be sure your dog, you and your family are safe from parasites!

Heartworm and Tick-borne Disease Test

(once per year)

- These are serious and potentially fatal conditions that we want to detect early to enable early treatment.

Up to 3 Free Health Exams

(for the year while enrolled)

- No need to wait when you have a concern about your dog's health.

Discounted Nail Trims (nearly 45% off)

(for the year while enrolled)

- Because your dog deserves a manicure/pedicure!

Also Included in Option B Plans:

Early Detection Blood Tests

(once per year)

- Early disease detection allows us to diagnose disease early and allows for intervention before the disease becomes more serious and more difficult to treat.

Urine Testing

(once per year)

- Aids in the early detection of infections, dehydration, kidney and bladder disease before they become too serious to treat.

Dental Cleaning (Optional Add-on)

(once per year)

- We will make every effort to keep your dog comfortable and pain-free for their "big day".
- Routine blood testing and E.C.G. is performed to help improve safety of anesthesia for your dog.
- I.V. Fluids are administered to encourage a speedy recovery.
- Full mouth dental x-rays to evaluate tooth roots and surrounding bone.
- Scaling above and below the gum line to remove plaque and tartar with an ultrasonic scaler and hand instruments.
- Grades 3 & 4 Cleanings and Extractions require additional fees.
