Feline Preventive Healthcare Plans

What can our Preventive Healthcare Plan (PHP) do for you and your cat?

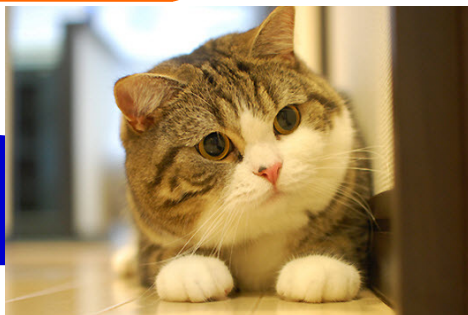

Cats age faster than we do! At 2 years of age, he or she would have aged the equivalent of nearly 25 human years! And by age 9, many cats are considered to be the human equivalent of a senior. Our annual PHP packages are designed to include all the preventive veterinary services we anticipate your cat will need to maintain their overall health.

Option A Plan
12 payments of
\$25.95/month (taxes extra)

Option B Plan
12 payments of
\$46.95/month (taxes extra)

Dental Add-on
12 payments of
\$51.00/month (taxes extra)
(added to one of above plans)

Up to \$200 in savings!!!

Included in every Cat Plan:

Comprehensive Health Examination

(once per year)

- A thorough physical examination to assess your cat's overall health from the tip of their whiskers to the end of their tail.

All Core Vaccinations your Cat Needs

(once per year)

- Vaccines are essential to protect your cat against common diseases and infections.

Fecal Testing

(up to 2 tests while enrolled)

- Fecal tests look for microscopic parasites that are not treated by regular deworming.
- We want to be sure your cat, you and your family are safe from parasites!

Urine Analysis Testing

(once per year)

- Aids in the early detection of infections, dehydration, and disease before they become too serious to treat.

Up to 3 Free Health Exams

(for the year while enrolled)

- No need to wait when you have a concern about your cat's health.

Discounted Nail Trims (nearly 45% off)

(for the year while enrolled)

- Because your cat deserves a manicure/pedicure!

Also Included in Option B Plans:

Early Detection Blood Tests

(once per year)

- Early disease detection allows us to diagnose disease early and allows for intervention before the disease becomes more serious and more difficult to treat.

Thyroid Panel Test

(once per year)

- Measuring thyroid hormone concentrations in your cat's blood helps ensure proper thyroid gland function to maintain normal growth and metabolism in your cat.

Urine/Protein/Creatinine Test

(once per year)

- Monitors for abnormal protein in the urine which may indicate early kidney disease.

Dental Cleaning (Optional Add-on)

(once per year)

- We will make every effort to keep your cat comfortable and pain-free for their "big day".
- Routine blood testing and E.C.G. is performed to help improve safety of anesthesia for your cat.
- I.V. Fluids are administered to encourage a speedy recovery.
- Full mouth dental x-rays to evaluate tooth roots and surrounding bone.
- Removal of plaque and tartar with an ultrasonic scaler and hand instruments.
