

Why enroll your kitten in our Preventive Healthcare Plan?

We know you want to offer your kitten the best care in his or her first year of life. Plan members will enjoy these benefits:

- ★ Affordable monthly payments for a comprehensive preventive healthcare plan for your kitten's first year.
- ★ Up to three free health examinations to be used when your kitten is sick or injured. Sometimes kittens will be kittens, and they may need veterinary care in their first year. Now there is no need for you to wait and worry!
- ★ Proactive preventive healthcare for your kitten to help get your kitten started off on the right path to a long, happy, and healthy life.

****1st monthly payment due at time of enrolment.****

****A full payment option is available for this plan****

****A mature, in-heat or pregnant spay requires additional fees**

Kitten Preventive Healthcare Plan

What can our Preventive Healthcare Plan (PHP) do for you and your kitten?

Congratulations on your new kitten! Just like you, we feel it is very important to keep your kitten happy and healthy and to give him or her a great start to life in their new “fur”-ever home! Our PHP packages include all preventive services we anticipate your kitten will need in his or her first year.

Approximately \$200 in savings!!!

Kitten Neuter Plan
12 payments of
\$62.95/month (taxes extra)

Kitten Spay Plan
12 payments of
\$69.95/month (taxes extra)

Included in every Kitten Plan:

All Core Vaccinations your Kitten Needs (up to 3 boosters)

- Every kitten, whether indoor or outdoor, needs preventive healthcare.
- Vaccines are essential in protecting them against common diseases and infections.
- Each of our vaccine booster appointments include a comprehensive health examination to assess your kitten’s overall health from whiskers to tail.

Feline Immunodeficiency Virus (FIV)/Feline Leukemia Virus (FeLV) Test (once for the year while enrolled)

- FIV is a retrovirus in the same family as the human AIDS virus.
- A disease caused by the FeLV virus is a form of cancer of the blood cells.
- It is recommended that all kittens be tested for both diseases.

Deworming

(given at each kitten vaccine booster visit)

- Deworming will not only keep your kitten healthy, but also protects you and your family!

Fecal Testing

(up to 3 tests for the year while enrolled)

- Fecal tests look for microscopic parasites that are not treated by regular deworming.

- We want to be sure your kitten, you and your family are safe from parasites!

Spay or Neuter Surgery

- We will make every effort to keep your kitten comfortable and pain-free while they are with us for their “big day”.
- Routine blood testing and E.C.G. is performed to help improve safety of anesthesia for your kitten.
 - I.V. Fluids are administered to encourage a speedy recovery.
 - Your kitten will go home with pain medications to control inflammation and help them recover quickly. We will also see your kitten in approximately 2 weeks to check the incision site.

Up to 3 Free Health Exams

(for the year while enrolled)

- No need to wait when you have a concern about your kitten’s health.

Discounted Nail Trims (nearly 45% off)

(for the year while enrolled)

- Your kitten deserves a manicure/pedicure!
